

Quantum Learning® education

Making Great Kids Greater®

Increasing Teacher Effectiveness and Student Achievement

Professional development programs for teachers, a comprehensive approach to teaching that incorporates:

- ✓ proven research on the brain and how students learn
- ✓ best practices in effective delivery methodology
- ✓ classroom management tools
- ✓ strategies for student engagement
- ✓ HOW TO implement immediately in your classrooms
- ✓ and the WHY behind it all!

“Quantum Learning is on the cutting edge. So very useful and applicable to teaching today.”

– Amanda Stewart, John Hancock Charter School

“Every educator should attend this training!”

– Jennifer Wrenn, Windsor Academy Charter School

“Quantum Learning is a strong program with sharp and well-trained presenters. It’s efficient, high energy and fun – positive and invigorating. I like the immediate applicability of the skills.”

– Dr. Al Church, Academy for Math, Engineering and Science

Quantum Learning®
education

Providing research-based teaching and learning methodology in over 30 states since 1981. Students from over 80 countries have attended Quantum Learning student programs.
